HALES ANGUS FARMS

SINCE 1962

26th Annual

SATURDAY, MARCH 20, 2021
CANYON, TEXAS 1:00 PM

at the farm, 3 miles south of Canyon on Hwy. 87, east side

Join us for complimentary lunch beginning at 11:30 a.m.

90 ANGUS BULLS

SPRING/FALL 2019 & EARLY SPRING 2020 BULLS

- Sons of the best Angus AI sires
- Several outstanding herd sire prospects are included
- Complete Performance & Ultrasound EPDs
- Ultrasound Carcass Data
- Scrotal Measurements
- Fertility Tested...Fully Guaranteed

63 ANGUS FEMALES

HEIFER MATES TO THE BULLS SELLING

- 33 Heifers bred to leading AI sires
- 30 Open Replacement Heifers

ACCOMMODATIONS

Best Western, Canyon	806-655-1818
Buffalo Inn Motel, Canyon	806-655-2124
Holiday Inn Express, Canyon	806-655-4445
Days Inn South, Amarillo	806-468-7100
10 miles north of Canyon	

Additional accommodations can be found in Amarillo, 20 miles north of the farm.

AIR TRANSPORTATION

Amarillo is serviced by several major airlines. Rent cars are available, or we would be happy to meet your plane with advance notice.

WELCOME to Hales Angus Farms!

HALES ANGUS FARMS SINCE 1962

27951 S. US Hwy. 87, Canyon, TX 79015 • www.halesangus.com

Dear Angus Friends & Fellow Cattle Producers,

It is my pleasure to invite you to our 26th Annual Hales Angus Farms Sale. This year marks our 59th year breeding Registered Angus Cattle. We invite you to come by and look this year's offering of superior genetics and off the chart growth and carcass numbers.

We have been 50K Testing our cattle for 5 years and moving to improve our genomic data. This is evident by looking at the higher growth numbers, all the big ribeye's, and our IMF numbers compared to the breed averages on Page 4.

We appreciate our many friends and repeat customers that have made our program successful. After years of A.I. and E.T. we have developed Angus cattle that have the genetic advantage to add more dollars to your program, whether you sell your calves at weaning, as yearlings, or on the rail. Some of the most rewarding comments we hear are your testimonials of how your calves topped the sale, how your replacement females made the best cows you have ever owned, or how the carcasses you sold on the rail produced mostly CAB, and the premiums you received made a big difference in your bottom line. That, truly, makes the hard work that goes into this breeding program worthwhile.

We have a superior set of bulls this year. They are muscular, stout, and fertile. They have low birth numbers with a big spread in high weaning weight and yearling weights. The females combine eye appeal and excellent IMF carcass numbers.

We look forward to seeing you on Sale Day, March 20. Come eat a great lunch with us and inspect the cattle. The sale will start promptly and will move fast. Bulls sell first, then the heifers.

Sincerely,

Rick & Stephanie Hales

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

TURN IN BIDS OVER THE PHONE. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at 817-378-3380 with a signature on it, or scan and email the form to info@superioauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

CLICK-TO-BID. This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

VIEWING THE AUCTION. The sale will be broadcast via satellite on **Dish Network channel 997** Please note that there is a short delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at www.superiorclicktobid.com – just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

Bidders who are successful in making purchases will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

CALL 800-422-2117 TO BID WITH SUPERIOR.

We recommend you call in five lots prior to the lot you are interested in.

Don't let 'em leave home without one!

If you have calves to market, don't let them leave home without an AngusSource tag. A recent third-party analysis of the Superior Livestock Auction data for 2008 showed that calves enrolled in AngusSource brought $3.37/cwt more than non-verified calves, and $1.29/cwt more than calves enrolled in other source and age-verified programs.

AngusSource is the most cost effective verification program available in the industry. The only program that guarantees Angus genetics, enrollment in AngusSource increases the marketability of your Angus-sired feeder calves and replacement females by:

- Verifying source and age
- Offering online marketing opportunities
- Documenting valuable health and management information
- Substantiating COOL claims
- Providing cattle an opportunity to qualify for Certified Angus Beef® regardless of hide color

To get started visit *www.angussource.com* to download the producer manual and enrollment forms or contact AngusSource at 816-383-5100.

ABOUT EPDs AND $VALUE INDEXES

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

PRODUCTION EPDs:

- **Calving Ease Direct (CED),** is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.
- **Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.
- **Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.
- **Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.
- **Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

CARCASS EPDs:

- **Marbling EPD (MARB)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.
- **Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.
- **Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

$VALUE INDEXES:

$Value indexes are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The $Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

- **Maternal Calf Value ($M)**, an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.
- **Weaned Calf Value ($W)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. $W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.
- **Feedlot Value ($F)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.
- **Grid Value ($G)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.
- **Beef Value ($B)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

AMERICAN ANGUS ASSOCIATION "CUP" PROGRAM

Hales Angus Farms is participating in the American Angus Association "CUP" Research Program. Ultrasound data on the bulls and heifers selling was collected and submitted using the CUP guidelines.

INDIVIDUAL PERFORMANCE

BW - Actual birth weight.
Adj. 205-day Wt. - Weaning weight, adjusted to 205 days of age (and in-herd ratio).
Adj. 365-day Wt. - Yearling weight, adjusted to 365 days of age (and in-herd ratio).

INDIVIDUAL ULTRASOUND DATA

Adj. %IMF - Intramuscular fat, adjusted to 365 days of age (and in-herd ratio). An objective measure of the actual amount of chemical fat in the ribeye muscle as measured between the 12th and 13th ribs using ultrasound.
Adj. Ribeye - Ribeye area in square inches, adjusted to 365 days of age (and inherd ratio). This trait relates to the amount and shape of muscling in the carcass.

SCROTAL CIRCUMFERENCE

Actual scrotal circumference measurement taken. Spring yearling bulls have adjusted 365-scrotal circumference.

OTHER CATALOG ABBREVIATIONS/NOTATIONS

Pathfinder animals are indicated by the pound (#) sign proceeding the name or registration number. Embryo transplants are indicated by the plus (+) sign proceeding the name or registration number.

EPDs CURRENT AS OF FEBRUARY 24, 2021.
For updated EPDs, visit www.angus.org.

For more information on how to use this information in your breeding program, visit the American Angus Association website: www.angus.org

Important Carcass Data To Note...

- The average **% IMF** on the fall yearling bulls selling is 4.71
  ...22% above the Angus breed average *(3.84)*.
- The average **% IMF** on the fall yearling heifers selling is 6.65
  ...38% above the Angus breed average *(4.83)*.
- The average **% IMF** on the spring yearling bulls selling is 4.49
  ...17% above the Angus breed average *(3.84)*.
- The average **% IMF** on the spring yearling heifers is 6.5
  ...35% above the Angus breed average *(4.83)*.
- The average **RE** on the fall yearling bulls selling is 14.93 *Angus breed average 12.61.*
- The average **RE** on the fall yearling heifers selling is 12.71 *Angus breed average 9.77.*

FOR YOUR INFORMATION

- Our cow herd includes approximately 40 Pathfinder Dams, many of which are included in the pedigrees of these sale cattle.
- All bulls selling have had two rounds of Bovi-Shield 5 and Ultrabac 7/Somabac, plus two rounds of Spirovac and Dectomax. All females have had two rounds of Bovi-Shield Gold FP 5VLF and Ultrabac 7/Somabac, plus two rounds of Spirovac and Dectomax.
- All females are officially calfhood vaccinated (OCV).
- All bulls have been fertility tested.
- All cattle sell under the suggested Terms and Conditions of the American Angus Association.
- If you would like to place a bid on any lot but cannot attend the sale, please fee free to contact the owners, sale manager, auctioneer or any publication representative listed on the inside front cover.
- Announcements at the sale by the owners or the auctioneer will take precedence over statements in the sale catalog. We reserve the right to withdraw any lot not meeting our specifications prior to sale time.
- When making settlement for your purchases, please leave specific instructions in writing for transferring of registration certificates, which will be mailed to you at a later date.
- All persons who attend the sale do so at their own risk. Neither Hales Angus Farms, nor any person connected with the sale assumes liability for accidents or loss of property.

How much can you afford to pay for a top bull?

COWMAN FORMULA

Increase in pounds per calf from a top performance bull
X # of cows bred to him per year
X # of years to keep the bull
X Expected selling price of calves

= Additional dollars you can pay for a better bull

Example: A bull who will add 30 lbs. to the weaning weight of each of his calves mated to 25 cows per year for 4 years and you sell the calves for $1.70 per pound.

30 X 25 = 750 X 4 = 3000 X $1.70 = $5,100

This bull is worth $5,100 more than the average bull who will keep your weaning weights the same. Take this formula and put your own figures in and see what you can afford to pay. This equation does not consider the increase in value due to calving ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

Caring for your new bull...

When you get your bull(s) home, observing these management practices will result in the best reproductive performance.

- **FEEDING:** Remember - the bull is a yearling or a long yearling and still has growing to do. Feed the young bull well. Hay and grain plus protein supplement will be adequate. You should feed 5 to 10 pounds of grain and 1 to 2 pounds of protein supplement in addition to a full feed of good quality hay from now until the start of breeding season. Supplemental feeding during the breeding season is recommended, if practical. After the first breeding season, continue to feed liberally so the bull will grow out well.
- **BREEDING SEASON:** Plan to use the new bull in a restricted 45 to 60-day breeding season the first time. Observe him closely to be sure he is serving and settling females.
- **NUMBER OF COWS:** The yearling bull should be used on a minimal number of cows or heifers. The number should be governed by his age at the start of breeding season. The following is a guide: 12 to 15 months should cover 10 to 12 females, 15 to 18 months should cover 12 to 18 females, 18 to 24 months should cover 18 to 25 females, and 24 months and older should cover 25 to 35 females.
- **MANAGEMENT AND HOUSING:** The bull should be kept in a well-fenced lot prior to and following breeding season. A shed or other natural wind-break should be provided. Supply plenty of clean water and minerals free-choice. Treat routinely for lice and grub worms. Run bulls together with caution. Bulls of similar age which have bred cows together will usually work. Check for any unsoundness which might develop. Test annually for brucellosis and leptospirosis. Vaccinate for IBR, PI3, BVD and leptospirosis.

"Evans Farms of Happy, Texas fed 40 head calf crop out of Hales Angus Bulls with Quality Beef. 25 head were 65% yield, 100% choice, 48% CAB. The cattle received $98.38/head premium for yield. 15 head were 64% yield, 93% choice 46% CAB. The cattle received $69.19/head premium for yield. All cattle were killed on the rail and were out of Black Angus cross cows. Thank you to Hales Angus for raising good Angus stock."

"For the past 12 years, we have purchased replacement bulls from Hales Angus. The shift to Hales Angus genetics has increased skeletal conformation, muscle mass, visual appeal, and carcass merit in our commercial herd. Weaning weights have increased an average of 17lb/hd. and marketability of weaned calves has followed suit. Hales Angus bulls possess a gentle disposition, are hardy, and adapt well to the semi-arid environment in west Texas."

– Owens Ranch, Barnhart, TX

Nutrition Plus™

Branded For Quality

Nutrition Plus is an American owned and operated company that provides a full line of quality livestock minerals and other nutrition supplements. We are dedicated to providing our customers with the best products and services in the industry, offering the best nutrition for your cattle (cow/calf, stocker, feedlot), horses, sheep and goats. "Branded For Quality" is not just a phrase but a philosophy of commitment in all that we do.

Branded For Quality is the standard for which Nutrition Plus strives every day to fulfill. This standard is achieved by providing quality products with quality results! Relationships are the benchmark of our successes both past and future. We invite you to be a part of our journey!

Dan Puckett 806-290-4089

AGI

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- **more accurate selection**
- **easier identification of genetic outliers**
- **the ability to propagate young animals with confidence earlier in their lives**

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation at www.angus.org.

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD).
